NATIONAL GENEALOGICAL SOCIETY
2019 FAMILY HISTORY CONFERENCE
8-11 MAY 2019 | ST. CHARLES, MO

Journey of Discovery

With courage in their hearts, joy in their souls, and a compass in their hands, American pioneers set out charting their course as they migrated to the Louisiana Purchase and the Northwest Territory. They opened the Midwest and Plains states to migration and new settlements. They crossed the country by wagon train and on foot, sailed on steamboats along the rivers, and rode the rails. Settlers farmed the land, felled trees for log cabins, or carved the earth to build sod houses. Native Americans, French fur traders, and Spanish soldiers preceded these settlers. After the Civil War, freed African Americans traveled north from southern plantations. The Germans and Irish as well as Eastern Europeans poured into the country and established new towns and cities, schools, and businesses, while maintaining their own customs and religions. Our predecessors built a nation and established their own history as they experienced the ultimate journey of discovery.

As genealogists, we pursue our ancestors' histories, trying to gain an understanding of who they were and what drove them to make this arduous journey. Our tools are not plows and axes but analysis, methodology, and research skills. The purpose of the National Genealogical Society's annual Family History Conference is to offer the best and most expansive series of lectures to advance your research by learning about techniques and resources to build your family history. The NGS conference in St. Charles, Missouri, includes more than 150 unique lectures on topics such as vital records and religious records, migration and immigration, U.S. census and military records, land records and maps, court records, ethnic

resources, government documents, using DNA testing, technology for genealogy, Midwest regional topics, and much more.

Conference registration for the NGS 2019 Family History Conference, begins 1 December 2018 at conference.ngsgenealogy.org.

At that time, you can also register for workshops, tours, meals, and other special events. Every conference attendee receives a digital conference syllabus of more than 600 pages that includes each handout provided for every lecture.
